

README 1st for DNP DS80 Printer Driver v3.1.3.0 for Windows 11

Driver ICM Version DS80_0101.ICM

ICC Profile made by GretagMacbeth ProfileMaker.

General Information:

Please refer to the instruction manual when installing the printer driver.

Important Note:

1. This printer driver is FOR USE WITH Windows 11 OS ONLY.
This printer driver may not work properly on Windows 7, 8 and 10.
For PC with Windows 7, 8 or 10, use the previous DNP printer driver v3.1.2.1 which is labeled for use the Win 7/8/10 OS and posted separately.

In case of Windows OS update, when the old DNP printer driver is installed on Windows 10 and the user updates to Windows 11, please UNINSTALL the old Win 7/8/10 printer driver and then install the new DNP printer driver for Windows 11.
2. The printer firmware must be updated to version 1.42 or later for this printer driver to work properly.
Firmware update utility v 1.42 or later is posted separately, so please check the README file before updating.
